## Welcome to Summit Orthopedics!

We are pleased that you have chosen our practice to take care of your orthopedic needs. We are a seven physician's multi-specialty orthopedic practice. In addition to treating general musculoskeletal conditions, we offer specialization in spine, sports medicine, hand and upper extremity, total joint replacement, and musculoskeletal tumors. The physicians and office staff are committed to making your experience with us as pleasant and as informative as possible. If you have any questions during your visit, please don't hesitate to ask.

In order to keep up with technology, the office is transitioning into an electronic medical record. This allows us to keep better, more thorough records on our patients. By filling in the appropriate circles on our initial patient encounter form, we can then enter your information into our new computer database. Your electronic record will facilitate better communication among Summit Orthopedics and your referring physician, pharmacy, laboratory, and diagnostic imaging center.

As healthcare in our country continues to change and medical reimbursement becomes more difficult we have had to set in place certain office policies regarding co-pays, insurance claims, doctor referrals, and missed appointments. Please take the time to read these policies prior to being seen by your physician today. If you have any questions at all regarding these policies please feel free to ask our office staff.

It is truly our pleasure to help take care of your orthopedic needs. On behalf of all the physicians and supporting staff we would like to welcome you to our practice.

Sincerely,

Drs. Conant, Bobrow, Goldsmith, Bernstein, Haque, Siram, and Narula
